• AI'd 4/24/17 to Crouthamel Protocol 3022

• This substitute lot brings much value to the table. To start, Lot 24X has the performance; with a WW EPD of +59 and a YW EPD of +106, you know the growth is there. With an above average \$W and a +67.76 \$F, she does not disappointment in the \$Values. Her sire, A A R Ten Gauge 1501, was a top seller at the 2012 Arntzen Angus Ranch Bull sale. He offers calving ease with extra thickness and very good feet and legs. Don't miss this excellent replacement opportunity!
