The fall was just starting to leave its touch on the state of Vermont with hints of colors in the trees and brisk mornings. The 5th Vermont Wagyu Production Sale started off with an amazing lineup of speakers on Friday night which included a Wagyu tasting and comparison of all beef grades across the board. After a fantastic social, the next morning started off with viewing the sale offering and another lineup of informative demonstrations and speakers. The auction was successful and in the end animals were sold to 11 states and Canada.
