This high selling bull from last week's Wilders Wagyu sale is the highest SRI breeding age bull sired by Mayura Notorious in the US – as mentioned this sire carries JNR as his direct sire in his tabulation and is littered with proven bloodlines - the Hikohime 3/2 dam line that is influenced by DAI 7 Itozakura through Itomochi, Kumanami and Okayama blood through Dai 3 Kiyohime. The direct dam of 60K is the icing on the cake. She goes back to Hikokura 1/10 dam line (through 3024Z). This is important because it brings DAI 7 Itozakura twice in this pedigree through Itomochi, Kumanami and Okayama blood through Dai 3 Kiyohime and Shimane Zenkyo Grand Champion cow Ezokintou J11691. 3024Z is also the full brother to 3025Z – the dam that produced the \$400,000 selling female and \$325,000 selling bull in 2023 (both record selling prices in the USA). He can offer any program rapid genetic change and improve some structure within a herd. This hard-to-replicate individual's makeup also knocks it out of the park in multiple traits in BreedPlan including EMA +6.2, amazing growth, MS +2.2 plus well above average Index Values.
